

# ML PRO - GATEWAY

- Raspberry PI based Core
- Monitors up to 50 Sensors simultaneously through Zigbee and transfers the data to Cloud through Internet using Wifi/Ethernet
- RF Modem Built-in : Wi-Fi, Zigbee, 2G GSM, Bluetooth
- 4G Modem Optional at higher cost
- Wired Networks : Ethernet, RS232, RS485 - MODBUS
- IoT Protocol: MQTT
- Networking Protocols: HTTP, DHCP, TCP/IP
- Webpage and App Interface for Configuration
- Cloud Platform: Google Cloud
- Email and SMS Services through Twilio and Mailjet
- External Power Adaptor 5V-3A
